A Letter to Home

It is 1855. You are an immigrant from Ireland who has come to live at Eckley to try and improve your life. Write a letter to the family you've left behind in Ireland describing your life at Eckley. Be sure to include information you learned during your field trip. You can choose to write from the point of view of a miner, his wife, or one of his children.

| Dear | *********** | ······································ | | |
